

# Trabajar cuidando niños Au Pair y Mothers Help

## Modelo de carta de presentación

Dear Family,

My name is Elena and I am 21. I study English at University. We live in a small town called Azpeitia, which is in a beautiful part of the Basque Country in Spain.

I like all kinds of sports, play the guitar and also take part in local amateur theatre. I have a brother Ignacio (8) and a sister Maria (4). Both are very cheerful and full of energy. I usually look after them after school and at the weekends.

My mother Maria (44) is a doctor and my father Tomas (49) is an engineer. We spend a lot of our spare time together, going on trips and doing other leisure activities. We also have a dog called Paco who is part of the family, and a very good friend to all of us.

I regularly help my mother with the cooking and housework, and looking after our large garden in which we grow all of the vegetables for our family.

During my holidays I usually work in a nursery school near our town. I help to look after children between the ages of 2 and 5. I really enjoy this job, because I love looking after children.

I have decided to be an au pair in Great Britain because I hope it can help improve my English, and my career, as I want to be a teacher when I leave university. I would also like to meet new friends, get to know England and its culture and be more responsible and independent. I think this is the ideal way because I like children and I am used to looking after them.

I am looking forward to learning all about your country and I would like to become a part of your family.

Kindest Regards,

Elena XXXXX
